

## ABOUT MIDA

Having his first experiences with Goa in the Mondmilchbar in Zuerich, Mida settled down in Munich in 2001. There he connected immediately with the local scene, resulting in his first records on the Munich based. His art studies at the University of Zuerich led to a deep understanding of dynamic which you will experience in his live sets: And they are really live: not a simple line of tracks, but a storytelling live act woven for hours and arranged in realtime!

During this Sonic adventures which are unique (you will not hear a set of him for a second time) Mida is not stuck on a certain style, he spins his musical thoughts from Morning progressive based sound to more powerful Full on like night music full of melodies and magic...

## EXAMPLES

First Released Track [Orion](#)  
Newest released Track [Out of Sight](#)
